Installation

First you must locate the 'App Store' on your device. On doing so, you need to search for 'Metatrader 4', and proceed to install. The correct app is shown below; the author is 'MetaQuotes Software Corporation'.

First you must locate the 'App Store' on your device. On doing so, you need to search for 'Metatrader 4', and proceed to install. The correct app is shown below; the author is 'MetaQuotes Software Corporation'.

Login

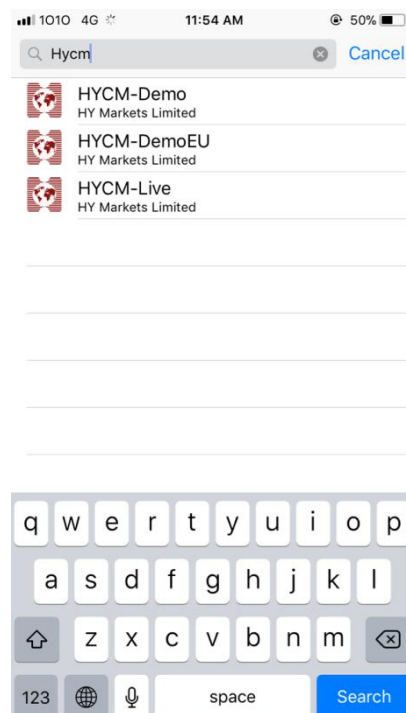

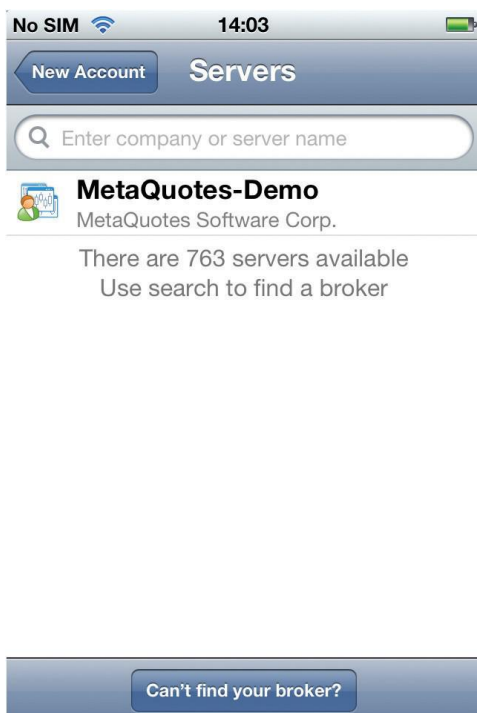

Login to existing account

On opening the 'MetaTrader 4' application you will be taken to the 'New Account' screen. Select 'Login with existing account'.

Note: At this point you should have already registered for a live account, or demo, via our website.

To log in you will first have to search for our server. Tap on the magnifying glass at the top of the screen, and search for 'HYCM'. To proceed to login with a live account, tap 'HYCM-Live', and to proceed to login with a demo account, tap 'HYCM-Demo'.

Now, enter your account number into the **'Login'** field, and your password below. If you wish to save your login details to avoid re-entering them in the future, slide the **'Save password'** box.

Once completed, tap the **'Sign In'** button in the top right hand corner.

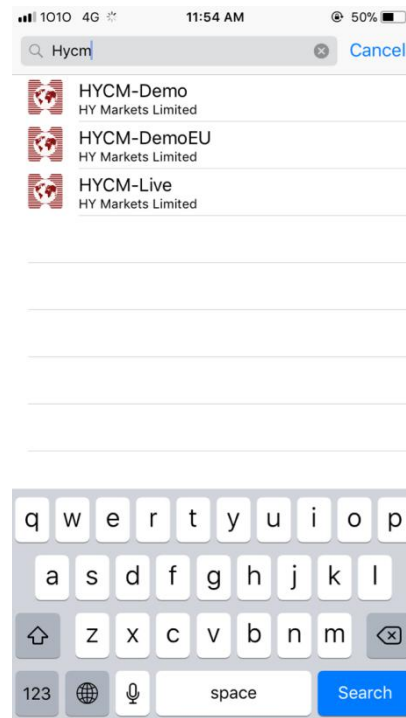

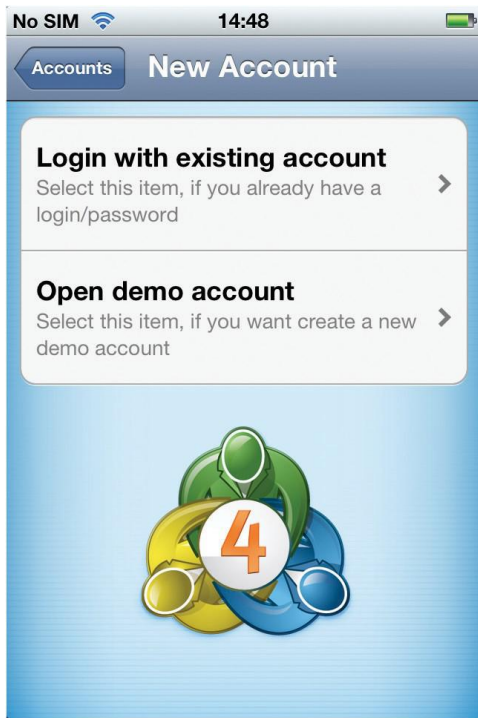

On successfully login, you will be taken to the **'Quotes'** window where you will see live prices.

Open demo account

Select this item if you haven't yet created a demo account, and wish to do so.

To create a demo account you will first have to search for our demo server. Tap on the magnifying glass at the top of the screen, and search for 'HYCM'. To proceed to create a demo account, select 'HYCM-Demo'.

After selecting you will be taken to the registration window. Enter all the required information and tap **'Register'** in the top right corner. On successful registration, your demo account details will display on the screen. It is recommended that you keep these details safe, as you may need them at a future date to login. Tap **'Done'** in the top right hand corner to finalise the process.

On successfully logging in, you will be taken to the **'Quotes'** window where you will see live prices.

Switching between multiple accounts

The 'MetaTrader 4' application allows users to have multiple accounts saved.

Tap the 'Settings' button on the lower toolbar, and then tap 'Accounts'.

All saved accounts will be displayed on the screen.

You can switch between accounts by selecting the account you want to activate. You may be required to re-enter your login credentials if they aren't previously saved.

On successful login you will be taken to the 'Quotes' window.

To add additional accounts tap the 'plus' icon in the top right hand corner, and then repeat the above process.

The 4 Main Sections

Upon login you will come to the 'Quotes' window. Within the 'MetaTrader 4' application there are four main areas that you should familiarise yourself with. These are:

- Quotes
- Charts
- Trade
- History

Quotes

By selecting the 'Quotes' tab, your device will display all available symbols. For each symbol you will see the associated 'Sell' and 'Buy' prices.

EURUSD	1.23800	1.23820
USDJPY	78.450	78.480
GBPUSD	1.54400	1.54430
USDCHF	0.96985	0.97015
AUDUSD	0.97115	0.97145
USDCAD	1.03160	1.03190
NZDUSD	0.75275	0.75325

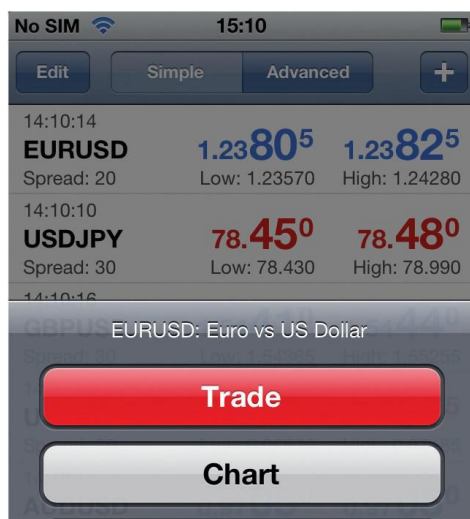

You can display more detailed information about each symbol by tapping the **'Advanced'** button at the top of the application.

In the **'Advanced'** mode, the **'Quotes'** window contains **'Spreads'**, **'Time data'**, **'High'** and **'Low'** prices.

Symbol	Current Price	Low	High
EURUSD	1.2380 ⁰	1.23570	1.24280
USDJPY	78.44 ⁵	78.430	78.990
GBPUSD	1.5439 ⁰	1.54365	1.55255
USDCHF	0.9701 ⁵	0.96630	0.97185
AUDUSD	0.9709 ⁵	0.96720	0.97630

By tapping a symbol, it will display a sub-menu with three options:

- **Trade** - Allows you to place orders for instant execution, or pending orders (Buy Limit, Sell limit, Buy Stop, Sell Stop)
- **Chart** - Directs you to the **'Chart'** window.
- **Details** - Displays detailed symbol information.

Charts

Tapping the **'Chart'** icon on the lower toolbar menu will display a full screen chart. You have the ability to zoom in and out by moving your finger vertically, and to scroll back by moving your finger horizontally.

The sub-toolbar, located at the top of the window, gives you variable options for the chart:

- **Time frame** - Select between different time frames (M1, M5, M15, M30, H1, H4, D1).
- **Chart type** - Choose between 'Bar Chart', 'Candlestick' and 'Line chart' view.
- **Selector** - Click to view chart information at the selected point.
- **Indicators** - Add technical indicators to your chart.
- **Settings** - Show additional information on the chart, such as 'Volumes'.

To change the symbol on the chart, you will need to go to the **'Quotes'** window, tap the symbol you wish to view, and select **'Chart'** on the sub-menu.

Trade

The 'Trade' section shows your account information at the top, displaying; 'Profit', 'Balance', 'Equity', 'Margin', 'Free margin' and 'Margin level'.

Below the 'Account information' you can see a summary of your current open positions.

History

Your 'Trade history' gives you a comprehensive run down of all your closed orders, removed pending orders, deposits/withdrawals and credits.

By tapping the options located at the top, you can customise the time frame:

You can also filter the history by symbol, by entering the symbol name into the search box.

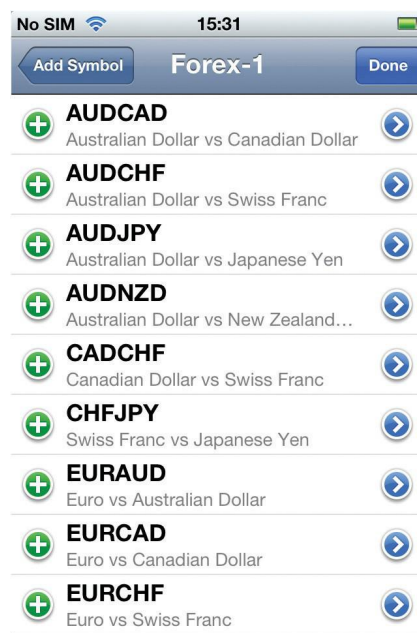

Functionality

Adding and removing symbols

The 'MetaTrader 4' application allows you to customise the symbols you would like to see on the 'Quotes' window.

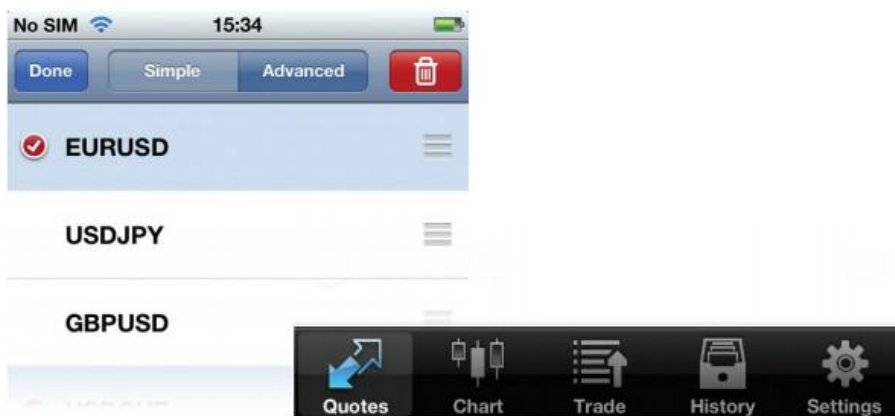

- **Adding a symbol**

Tap the 'Plus' icon in the top right hand corner of the 'Quotes' window, and tap the symbols you wish to add.

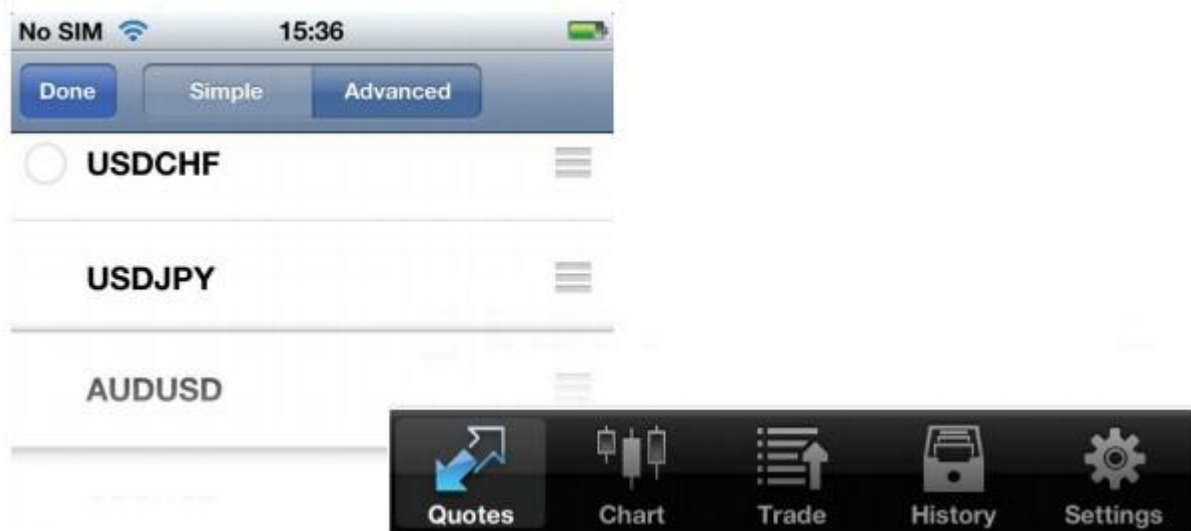

- **Removing a symbol**

Tap the 'Edit' icon in the top left hand corner of the 'Quotes' window, and tap the symbols you wish to remove. When you are finished, tap the 'Bin' icon in the top right hand corner to remove the symbols from your list.

- **Modifying the symbol position in the 'Quotes' window**

You can re-arrange the order that the symbols will appear on your **'Quotes'** window, placing your more favoured symbols at the top. Tap the **'Edit'** icon in the top left hand corner of the **'Quotes'** window, and then hold and drag the **'three lines'** for the symbols you wish to move, dropping them in your preferred position.

Opening a trade

Opening an order is simple and can be done from either the **'Quotes'** window, or the **'Charts'** window.

- To open an order from the **'Quotes'** screen; tap the symbol you wish to trade, and select **'Trade'**.
- To open an order via the **'Charts'** window; tap the chart to bring up the sub-menu, and select **'Trade'**.

There are five types of order you can choose from:

- Instant Execution
- Buy Limit
- Sell Limit
- Buy Stop
- Sell Stop

After selecting your order type from the **'right scroller'**, select your chosen symbol from the **'left scroller'**, and enter the volume you would like to trade. Once all parameters have been set, tap **'next'** in the top right hand corner of the screen.

On the next screen you have three further parameters you can customise; alternately you can leave them all as zero. These are:

- Stop Loss
- Take Profit
- Deviation

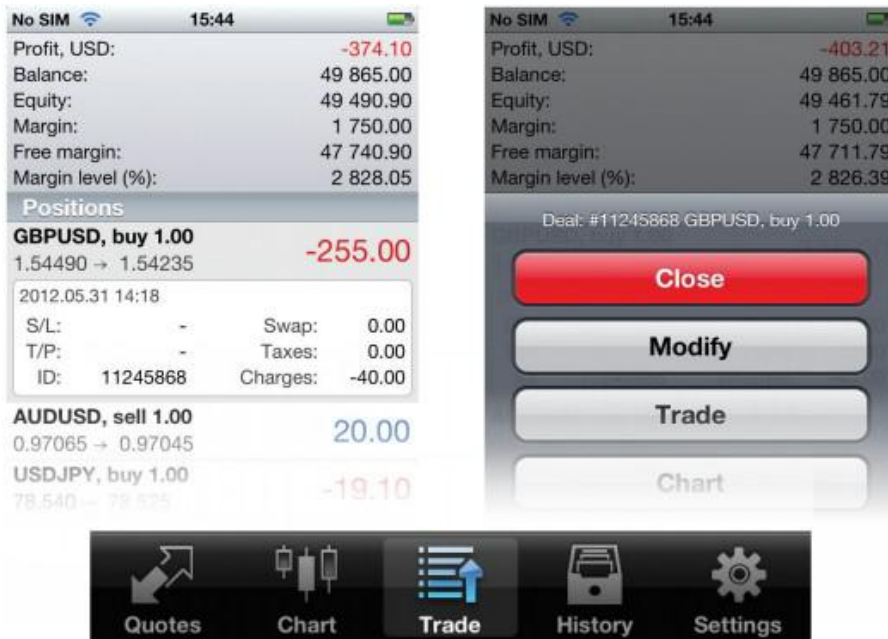

After you have finished customising the fields, tap 'buy' or 'sell' and your request to open a new position will be sent. A confirmation screen should appear shortly after the request was approved.

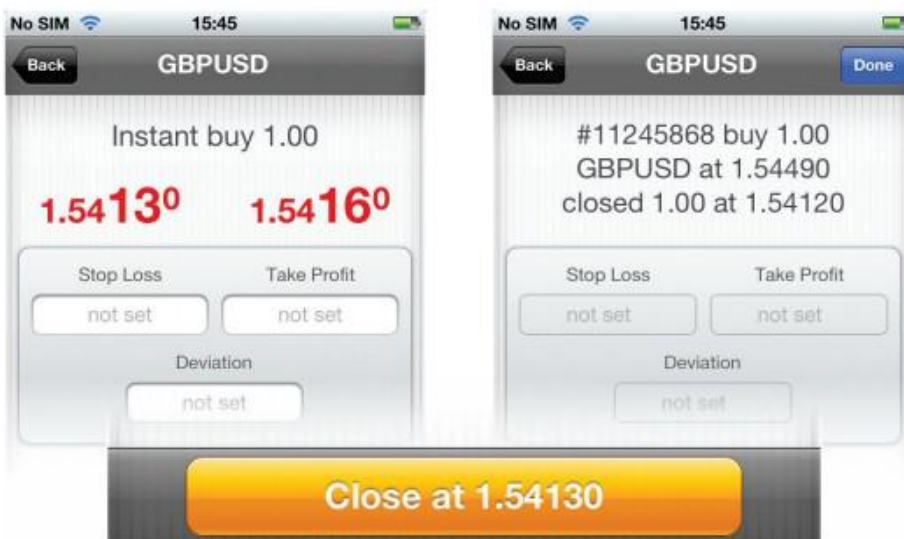

Closing a trade

Positions can be closed from the 'Trade' window.

Tap the position you want to close. Now tap and hold to bring up the sub-menu, select 'Close'.

When you receive the price you want, by tapping the 'Close' button, your request will be sent to our server. A confirmation screen should appear shortly after the 'Close' request was approved.

Modifying a trade

Positions can be modified from the **'Trade'** window.

Tap the position you want to modify. Now tap and hold to bring up the sub-menu, select **'Modify'**.

Change the parameters for your **'Stop loss'** and **'Take profit'**. Once you have set your parameters, tap the **'Done'** to close the keyboard, and then tap **'Modify'**, located at the bottom of the window.

A confirmation screen should appear shortly after the **'Modify'** request was approved.
